North Pole Refinery  
MAPCO Petroleum, Inc. (Owner)  
Attn: James Boltz, Manager  
Pouch 720  
Fairbanks, AK 99707

Dear Mr. Boltz:

The state recently completed a study that yielded the enclosed report on your facility. The reasons for the report and the methods used to collect data are described in the sections labeled "Introduction" and "Approach."

The state is interested in obtaining only the best information available on your facility. We welcome your written comments, corrections, and suggestions. They will be included in our file with the report.

The "Action ranking" for your facility was "low". This means that there will be further investigation but not immediately.

When more information is required, the state will notify you directly or work through a contractor. The state wants you to participate in this effort because the best information about your facility will come from you.

This report is only the first step in our efforts to locate and clean up uncontrolled hazardous waste sites. As you can tell, no sampling has been performed. If you have any questions, please call me or Glenn Miller of my staff at (907)465-2666.

Sincerely,

  
David DiTraglia  
Hazardous Waste Program Manager
